

Lewis & Clark The Expedition

On April 30, 1803, the United States of America purchased the Louisiana Territory from Napoleon for \$15 million. Thomas Jefferson decided to send two adventurers - Meriwether Lewis and William Clark - to explore this huge terra incognita. The Lewis & Clark Expedition (lasting from 1804 to 1806) was the first American expedition to cross what is now the western portion of the United States.

GAME OVERVIEW

Let's go back to 1803 and imagine that President Jefferson did not send one but many expeditions to explore the Wild West. You and the other players will each lead one of these parties. Your aim will be to cross the North American continent and, of course, to reach the Pacific as soon as possible. History will only remember the first to arrive. Lewis & Clark is a race game driven by resource and hand management. What needs to be managed are your resources, your Corps of Discovery, and especially the trappers and Native Americans met during the journey. Good management will result in good progress across the West!

YOUR FIRST FEW GAMES

When you're first learning the game, we strongly advise you to play it with only 2 to 4 players, since the 5-player game is more suited for experienced players. We do not recommend playing the 5-player game with players who have never played Lewis & Clark before.

VARIANTS

After playing Lewis and Clark a few times, you might want to make things a little different with the Route Change tokens.

And, if you want to play alone, we have a solo variant for you (see page 15).

COMPONENTS

1 Game board

5 Scout figures of different colours

5 Camp tokens of different colours

100 Resource hexagons

8 Resource Multiplication markers

18 Indian figures

12 double-sided Boat tiles

84 Character cards (30 Starting Characters with the player's coloured symbol at the bottom right + 54 numbered Encountered Characters)

10 Route Change tokens

8 Resource Badge tokens (for solo play)

SET UP

- 1** Unfold the game board and place it in the centre of the table.

It represents the territory that you will have to cross, and also an Indian Village where you will be able to get help for your journey.

- 2** Place the resource hexagons on the appropriate Stocks of the game board:

Primary Resources

A1 20 Wood

A2 20 Fur

A3 15 Food

A4 15 Equipment

During your journey, you will need different kinds of resources. Some of them can be obtained directly by using an action (this costs nothing) ; these are the Primary Resources.

Transformed Resources

B1 15 Dugout Canoes

B2 15 Horses

Other resources need a « transformation » ; you will have to give some resources or Indians to get them.

Each group of resources is a Stock.

8 Resource Multiplication Markers

Place them next to the game board. If a Stock is depleted, a player may take a marker, and put an appropriate hexagon on it, making it worth three of that resource.

Resources will not run out during the game. Multiplication Markers allow you to compensate for a potential shortage of resource hexagons.

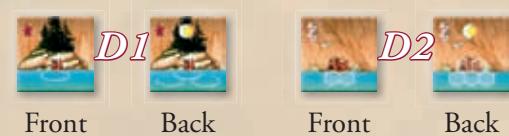

- 3** Based on the number of players, take the appropriate number of Indian figures and place them next to the game board to form the Stock. Remaining Indians are put back into the box.

Number of Players	Number of Indians used
1	6
2	9
3	12
4	15
5	18

The Indians will allow you to perform actions in the Village or with your Characters. They can also increase the power of your actions. More Indians are available when you use the "Interpreter" Starting Character. Use good management as they could slow you down.

- 4** Place 1 Indian figure from the stock on the Newcomer area **C** of the game board.

- 5** Place the 12 Boat tiles on the game board (on the Gulf of Mexico) in two stacks of 6 tiles:

Front

Back

Front

Back

By adding these Boats to your Expedition, you will increase your storage or passenger capacity.

- 6** Each player chooses a colour and takes the 6 Starting Character cards of this colour in his hand.

If there are fewer than 5 players, the unused Starting Character cards are placed back in the box.

These 6 cards represent historical members of the Expedition. They form your starting hand. At the beginning of the game, all the players have identical hands, apart from the names of their explorers.

7 Shuffle the 54 Encountered Character cards to form the draw deck, and place it face down on the game board, on top of the Journal of Encounters . **E**

Draw 5 cards from this deck and arrange them on the Journal of Encounters by their Strength (number at the card's top left-hand corner) **F**. The lowest Strength card is placed at the bottom of the Journal, close to the Gulf of Mexico, and the highest Strength at the top. If two cards have the same Strength, place them in the order drawn.

THE CHARACTER CARDS

The Characters may either: perform actions; acquire or transform resources; or move your expedition forward on the route.

Back

84 Character cards composed of:

- 30 Starting Character cards (5 crews of 6 Characters), with the players' colours on the back.

8 Each player takes an Expedition mini-board of the colour she chose and places it in front of her. She takes an Indian figure from the stock and places it on the fourth Boat **G** of her Expedition.

9 Each player takes 1 Fur, 1 Food, and 1 Equipment from the Stocks and places them on the first boat **H** of his Expedition.

VARIANT: Take 4 primary resources of each kind from the Stocks. Randomly, give 3 of them to each player who immediately places them on the first Boat of his Expedition. Place the remaining resources back into the Stocks.

This way, the players start with different resources each game.

10 Each player places the Scout figure of her colour on the Route starting space (St Louis).

She places the Camp token of her colour next to the river, pointing at the starting space (St Louis). **I** The Scouts and Camps of the unused colours are placed back in the box.

11 The starting player is chosen randomly. The game starts with this player's turn.

THE EXPEDITION MINI-BOARDS

Your Expedition is represented by your individual board. It is composed of Boats on which :

- you will store the resources you get (hexagonal spots); or
- you will place the Indians who join you (circular spots).

Some of these Boats are «easy to handle»: they will not slow you down during your Encampment phase. Others (with a Time symbol above them) will slow your Encampment if their spaces are occupied during this phase.

At any time during your Expedition, you may reorganize your resources and Indians in any way you like, enabling more of them to be on Boats that cost less Time.

OBJECT

During the game, you will mainly perform actions by using Character cards from your hand, but also by sending Indians of your Expedition to the Village. These actions will allow your Scout to move forward on the route. Character cards can either perform actions (for which they'll need to be given Strength), or provide Strength to another Character card.

Frequently, you will have to stop and Camp in order to retrieve the Character cards that you have previously played. During this phase, your Scout will have to move back on the route if your Boats are heavily loaded with resources or if you transport a lot of Indians. How long it takes for your Expedition to set up Camp will be crucial. Afterwards, your Camp token will join your Scout.

When a player brings his Camp on or beyond the Fort Clatsop space, the game immediately ends. This player wins the game, because he is the first one to reach the Pacific.

GAME TURN

On your turn, you **must** perform **an Action**.

In addition to this compulsory Action, you can set up Camp.

You can also Recruit a new Character.

Those two phases are optional: each of them can be done any time during the player's turn, before or after the compulsory Action, but never simultaneously.

ACTION (COMPULSORY PHASE)

On your turn, you **must** perform **an Action**. There are two types of Action: the Character cards' Actions and the Indian Village Actions on the game board.

To perform an Action, Strength, represented by this symbol , must be given to the Action by Indian figures, or from another card, or both! Character cards have a Strength from 1 to 3 and the Indian figures have a Strength of 1 each. The Action may be performed this turn as many times as the number of Strength points given to it.

CHARACTER CARDS ACTIONS

In order to activate the Action of a Character card from your hand, you must play it in front of you. It must be given Strength (its own card Strength is NOT used!) from either:

- (A) another Character card from your hand: choose a card and place it face-down underneath the card to activate it; or
- (B) Indian figures taken from your Expedition: take 1, 2 or 3 Indian figures from your Expedition mini-board and place them on the card to activate; or
- (C) a combination of a Character card from your hand and 1 or 2 Indian figures: choose a card and place it face-down underneath the card and place 1 or 2 Indian figures on it to activate, with a maximum total Strength of 3.

In all three cases, the Action is performed as many times as the Strength that activates it.

A - The Action is performed once using a Character card with a Strength of 1.

B - The Action is performed twice using 2 Indians.

C - The Action is performed 3 times using a Character card with a Strength 1 + 2 Indians

The Character cards played remain in front of you and constitute your Playing Area.

Be careful! In cases A and C, the Action of the face-down card is temporarily unavailable (until the next Encampment).

In cases B and C, the Indians played still belong to your Expedition.

It is often useful to perform an Action more than once. Having Character cards with a Strength of 2 or 3 in hand is a big advantage, since Actions can now be done without Indians.

INDIAN VILLAGE ACTIONS

The Village Actions (shown by icons in bubbles) can only be activated by Indians placed on the Action area.

- On an empty circle, place just one Indian figure taken from your Expedition.
- On a semicircle, place **simultaneously 1, 2 or 3 Indian figures** taken from your Expedition, regardless of whether or not the area is already occupied.

In both cases, perform the Action as many times as the number of Indians you have placed. These Indian figures do not belong to you anymore.

Unlike the Character card Actions, these Actions are available for all the players.

Karine places 2 Indians and performs the «Canoe manufacturing» Action twice, even if 3 Indians are already present (semicircle).

Philippe places an Indian and performs the «Hunting» Action once (empty circle).

The Village Actions can be hotly contested! Anticipating when the other players will try to grab them is a key part of your strategy.

Important Note About the Actions (Characters and Village)

It is always permissible to use only a part of the Strength (or none of the Strength) that has been given to an Action. For example: an Action that has been given a Strength of 3 could be performed twice, or once, or not at all, rather than three times.

It is also permissible to take only some (or none) of the benefits gained from an Action, rather than all of them.

RECRUITMENT (OPTIONAL PHASE)

During the adventure, you will meet Characters who will be able to join your Corps of Discovery. They are present on the Journal of Encounters. You can only recruit one Character each round, either before or after your compulsory Action.

Pay the cost in Equipment and Fur corresponding to the Character you want to recruit:

- as many Fur as indicated by his position on the Journal of Encounters
- and as many Equipment as the Strength of the Character.

You can partially or completely pay the required Equipment by discarding one (and only one) card from your hand. Then you save as many Equipment as indicated by the Recruitment Discount on the back of the discarded card. The discarded card is placed face-up into a discard deck beside the game board. Immediately add the recruited Character to your hand.

Then add a new Character card to the Journal of Encounters.

At the beginning of his turn, Cédrick wants to recruit Black Cat. His cost is 4 Fur and 3 Equipment. Cédrick gives 4 Fur, and then puts 2 Equipment into the Stock and discards Hugh McNeal, who has a Strength of 1 (which counts as 1 Equipment). He adds Black Cat to his hand.

Advice to beginners

During your first games, we advise you not to discard your Interpreter and Commander (see Starting Character Actions description). Without these two cards, and without having recruited the necessary Characters, you would not be able to win the game!

Add a new card to the Journal of Encounters

As soon as a spot becomes empty on the Journal of Encounters, move all the Encountered Character cards downwards. Draw a new Character card and place it on the first spot, close to the draw deck. Do not re-arrange the cards by Strength!

ALL THE ENCOUNTERED CHARACTER CARDS ARE DESCRIBED IN THE LAST PAGES OF THIS RULEBOOK.

ENCAMPMENT (OPTIONAL PHASE)

You can **set up Camp** any time during your round, before or after your compulsory Action. Your Camp and your Scout might end up at the same spot during this time.

IF YOU CANNOT PERFORM ANY ACTION (CHARACTER OR VILLAGE) AT THE START OF YOUR TURN, THEN YOU MUST FIRST SET UP CAMP BEFORE TAKING YOUR COMPULSORY ACTION FOR THAT TURN.

This phase allows you to take back into your hand the cards you have played into your Playing Area. Nevertheless, it can take time and delay your progress. This time is symbolized by the «Time» icon ☼ present on the cards and on the Boats.

When you set up Camp,

- Place all the Indians played on your Character cards back on the Boats of your Expedition.

At any time during your Expedition, you may reorganize your resources and Indians in any way you like, enabling more of them to be on Boats that cost less Time.

2- Calculate how much Time you spend in Camp. It is equal to the sum of :

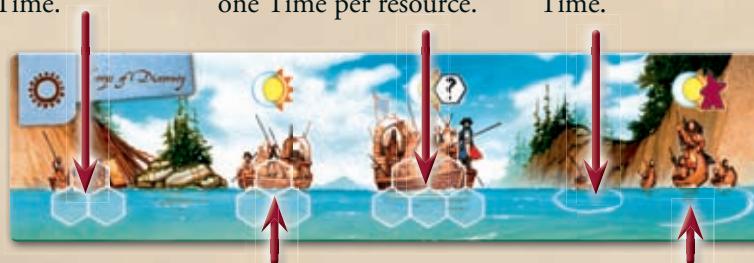

- the Character cards **still in your hand** at this moment, and
- the possible Time costs of the Boats of your Expedition (based on transported resources and Indians, see below).

Your Characters that haven't been used since the last Encampment slow you down: they want to talk with you about their terms of employment.

Unloading Boats, only to later re-embark, takes valuable time away from your journey. Therefore, you must carefully manage your resources in order not to fall back.

TIME COSTS OF THE EXPEDITION BOATS

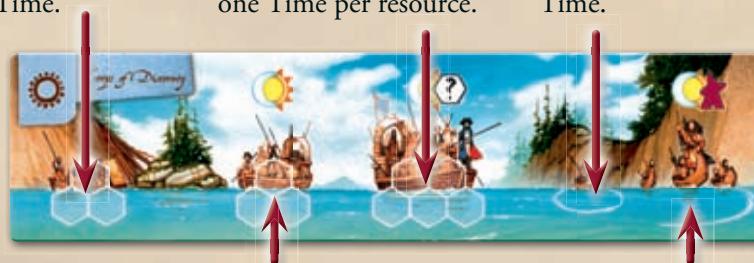

This Boat can contain up to three resources, and costs no Time.

This Boat can contain up to five resources. It costs one Time per resource.

This Boat can hold only one Indian, and costs no Time.

This Boat can contain up to three resources. It costs one Time if it contains at least one resource.

This Boat can hold an unlimited number of Indians, but it costs one Time per Indian present.

3- Move **your Scout** backwards by the same number of spaces as the Time your Expedition spends in Camp, observing the Scouts' movement rules (see page 8).

IF YOUR SCOUT HAS TO MOVE BACKWARDS MORE THAN 5 SPACES DOWNRIVER FROM SAINT LOUIS, ITS MOVEMENT STOPS ON THE FIRST RIVER SPACE, EVEN IF OTHER SCOUTS ARE ALREADY THERE.

4- Bring your Camp up to your Scout **if the Scout is further ahead** and point your Camp token at the space where the Scout is. Do not move your Camp if your Scout is situated further behind than your Camp.

5- Take all the cards from your Playing Area back into your hand.

The Camp

A Camp never moves backwards on the Route. At the end of your Encampment phase, several Camps can be pointing at the same space. A Scout can be on a space pointed at by one or more Camps.

Karine (Blue) must Camp. She takes her two Indian figures (present on her cards in her Playing Area) and puts them on her Boats. She then calculates her Time spent in Camp. In the situation shown on below, Karine's Time spent in Camp equals 5:

- 1 for the Character card left in her hand **A**
 - +1 for the 3 resources present on her Boat **B**
 - +2 for the 2 resources present on her Boat **C**
 - +1 for the Indian present on her Boat **D**. Which makes a total of 5 Time points.
- Karine therefore must move her Scout 5 spaces backwards on the River. Then she moves her Camp token next to her Scout and takes back her cards into her hand.

GAME END

When a player brings his Camp token on or beyond the Fort Clatsop space, the game ends immediately. This player wins the game.

During your first games, you might think that the start player is at a small disadvantage at the beginning of the game. However, the “sudden death” ending at Fort Clatsop balances things out.

STARTING CHARACTERS' ACTIONS DESCRIPTION

Primary Resources Collection

The Lumberjack, the Hunter, the Blacksmith and the Fur Trader allow you to collect resources (see above). When you play one of these Characters, add up the number of relevant resource badges visible in the top corner of each card in your Playing Area (including the cards used to perform the Action) and also those in your left-hand and right-hand neighbours' Playing Areas (or your only neighbour if playing a 2-player game).

THE RESOURCE BADGES

Multiply the number of badges you've just counted by the value of the Strength given to your Action. Take as many resources **as you want** from the corresponding Stock, up to the total number of badges you've worked out. Place them on your Boats' free spaces. During a collection, previously held resources cannot be discarded from your Boats unless your Boats are already full. In this case, you can return to the Stocks the excess resources of your choice.

The resources can be reorganized as often as you want, but you can never have more resources than you can store (even temporarily).

Karine (Blue) plays her Lumberjack, and gives him a total Strength of 2 from a Character card placed underneath. There are now 5 visible Wood badges in her own and her two neighbours' Playing Areas, Julien's (Orange) and Cédrick's (Green). Karine can therefore take $2 \times 5 = 10$ Wood from the Stock. She decides to keep only 7 which she places on her Boats. The remaining resources go back to the Stock.

Take Indians on board

The Interpreter allows you to welcome new Indians into your Expedition.

- Gather on the Powwow area (in the centre of the Village) all the Indians in the Village (including the Indian present on the Newcomer area).
- Then take as many Indians as you want from the Powwow area. Place the Indian(s) you have taken in the Boats of your Expedition.
- Discard** the Character card situated on the last page (at the bottom) of the Journal of Encounters, and put it face-up in the discard deck. Now add the top card from the draw deck to the Journal (see «Add a new card to the Journal of Encounters» page 5).
- Finally, place an Indian figure, taken from the Stock, on the Newcomer area. Ignore this step if the Indian stock is empty.

If you activate the Interpreter action with a Strength of 2 or 3, repeat the process respectively 2 or 3 times, refilling the Journal and the Newcomer area each time. This will allow you to obtain 1 or 2 additional Indians.

The Interpreter Action is a key Action in this game. This is the only way to add Indians to your Expedition. It also:

- makes available all the Village Actions once again,
- reveals new cards in the Journal, which gives more options for recruiting.

1- Julien plays his Interpreter with a Character card that has a Strength of 1. He gathers on the Powwow area all the Indians present on the board (including the one present in the Newcomer area). There is a total of 4 Indians.

2- Julien decides to add all of them to his Expedition.

3- Then he discards the bottom card of the Journal of Encounters and draws a new one that he places on the Journal, next to the draw deck.

4- Finally, he takes an Indian figure from the Stock and adds it to the Newcomer area.

Move Forward on the Route

The Route

The Route is composed of several parts :

- three River parts (in blue),
- two Mountain parts (in grey),
- two «Mountain-River» spaces, both of which are River and Mountain at the same time.

VARIANT: After you've played a few games, we suggest designing your own Route! You can add some Route Change tokens to some of the Route spaces on the board. This way, a different distribution of River and Mountain spaces will allow you to try some new strategies.

Philippe (yellow) plays his Commander with a Character card (Strength of 2). This allows him to perform the Action twice. He pays 2 Horses to move his Scout forward $2+2=4$ spaces on the Mountain. Since there are only 3 spaces left that Horses can handle in front of his Scout (2 Mountain and 1 Mountain-River spaces), he moves his Scout forward only 3 spaces. One movement space is lost.

The Commander allows you to move your Scout forward on the Route. For each Strength that activates this card, choose one of the following options:

- Pay one Food from your Boats and move your Scout forward 2 River spaces.
- OR pay one Canoe from your Boats and move your Scout forward 4 River spaces.
- OR pay one Horse from your Boats and move your Scout forward 2 Mountain spaces.

There are 2 «Mountain-River» spaces, before and after the first Mountain area. In these spaces, you can move your Scout forward with any of the three resources. A part of the move may be lost, however, if the land type changes to something that the resource normally can't handle (e.g., after moving through a Mountain-River with a Horse, movement would stop if a River space came next).

Scouts' Movement

A Scout movement can never **end** on the same space as an opponent's Scout because on the Route, only one Scout is permitted per space (except in Saint Louis, which is the starting space, and the first space of river). If this happens, the Scout moves forward to the next available space (possibly moving backward during the Encampment phase). Players may pass through an occupied space, however.

Remember: when your Scout moves forward several times during the same Action (thanks to a card activated 2 or 3 times), do not take the positions of opposing Scouts into account while you're moving, but only the position of a Scout on the **final** space of your movement.

Karine (Blue) plays her Commander with a Character card (Strength of 1) and two Indians (like all Characters' Actions, the Commander's own card Strength is not used for his own action!). This gives her Commander a Strength of 3, allowing her to perform the Action as many as 3 times. She chooses to pay two Food and one Horse, which allows her to move her Scout forward 4 ($2+2$) spaces on the River and 2 spaces on the Mountain. Julien's Scout (Orange) occupies the last space of this movement. Karine therefore moves her Scout one additional space in the Mountains!

As two Scouts cannot stay on the same space, it is possible to end movement on a Mountain space after playing a card that allows you to move only on the River (and the other way around)!

DESCRIPTION OF THE VILLAGE ACTIONS

In the Village, there are eight different areas, corresponding to eight Actions which can be performed by all the players :

- five areas with only one spot (one circle) for the Hunting, Craftsmanship, Gift, Farewell and Shamanism Actions
- one area with two spots (two circles) for the Expedition Upgrade Action
- and two unlimited areas for the Canoe Manufacturing and Horse Trade Actions.

Village Actions are, overall, less valuable than those of the Encountered Characters; but they save you from having to commit a Character from your hand, and give you the opportunity to get resources that you might not obtain otherwise. They also allow you to reduce the number of Indians in your Expedition.

Hunting

Take 1 Food **AND** 1 Fur from the Stock and place them on your Boats.

Craftsmanship

Take 1 Equipment **AND** 1 Wood from the Stock and place them on your Boats.

Gift

Take 2 Fur **OR** 2 Wood from the Stock and place them on your Boats.

Farewell

Discard 0 to 3 Character cards from your hand (place them face-up in the discard deck).

Then discard **all** the Character cards from the Journal of Encounters. The discarded cards are placed face up in the discard deck beyond the game board. Refill the Journal by drawing 5 new cards and placing them in the order drawn.

Karine places an Indian in the Farewell area. She discards 2 cards from her hand. She empties the Journal of Encounters and draws 5 new cards that she places on the Journal.

This action can be useful in order to :

- lighten your hand and get rid of cards which have become useless
- reveal new Character cards on the Journal, and then recruit one.

Horse Trade

Pay 3 **different** resources to take a Horse from the Stock. Each of the three resources must be different from the other two!

Julien plays an Indian on this spot. He pays one Wood, one Food and one Equipment from his Boats and takes one Horse which he places on his Boats.

Canoe Manufacturing

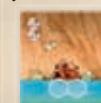

Pay 2 Wood to take a Canoe from the Stock.

Julien plays 2 Indians on this spot. He pays 4 Wood from his Boats and receives 2 Canoes that he places back on his Boats.

Expedition Upgrade

Pay 3 Wood and you have the choice to take :

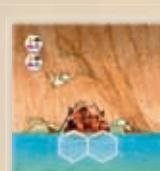

either one Boat tile (which can carry resources) and 2 primary resources of your choice from the Stocks,

or one Boat tile (which can carry Indians) and 1 Indian from the Stock. If there is no Indian left in the Stock, take the tile alone.

Add this Boat to your Expedition, along with the Indian or the resources, by placing the tile next to your Expedition.

Choose carefully which side of the Boat tile will be facing up! Once those tiles are placed next to your Expedition, they cannot be turned over again.

This Boat can contain up to two resources and costs no Time during Encampment.

This Boat can transport one Indian and costs no Time during Encampment.

This Boat can contain up to five resources and costs one Time during Encampment if it contains at least one resource.

This Boat can transport up to three Indians, and costs one Time during Encampment if it transports at least one Indian.

Philippe places an Indian in one of the two circles of the Expedition Upgrade. He pays 3 Wood from his Expedition. Then he takes a Boat tile and places it next to his Expedition, with the «3 Indians» face up. He places in it one Indian taken from the Stock. So, he has replaced the Indian used to perform this Action with a new one and has reduced the cost to transport Indians.

This Action will be more useful if you perform it early in the game. Depending on your strategy (resource or Indian), you will choose either one or the other type of Boat. Furthermore, this Action provides you 2 resources or an Indian.

Shamanism

Pay one Food to activate a face-up Character Action that is already on the table (one in your Playing Area or one in any other player's Area). You may do this Action **only once**, regardless of what Strength had been used to originally activate it.

If you copy an Action of one of your opponents, treat that card as if it were in **your** Playing Area, NOT that of your opponent, when calculating the rewards resulting from that Action.

The Character cards with a permanent effect, indicated by this symbol , cannot be copied.

Julien places an Indian figure on the Shaman. He pays one Food and triggers the Action of Karine's Interpreter (only once). He gets several Indian figures, including the one he placed on the Shaman.

On her turn, Karine takes advantage of the Shaman circle being empty by placing an Indian there. She pays one Food to copy the Action of her Commander, which she had previously played into her Playing Area. She pays one Canoe and moves her Scout forward 4 spaces on the River.

This Action allows you to play the Action of another player's Character or to repeat an Action that you already played.

THE HISTORY BEHIND THE GAME

When Thomas Jefferson became the third president of the United States in 1800, the nation occupied a roughly square-shaped area that stretched about 1000 miles (1600 km), from the Atlantic Ocean in the east to the Mississippi River in the west, and from the Great Lakes in the north to the Gulf of Mexico in the south. Roads and paths across the country were poor. Rivers, therefore, were the preferred trade routes.

In 1803, with the stroke of a pen, Jefferson doubled the size of the United States by purchasing the Louisiana Territory from France, at a price of \$15 million. France had bought the territory from Spain only three years earlier. The United States now had access to the strategic port of New Orleans, and to the Wild West, beyond the Mississippi. Hitherto, this immense country had been known only to its Native inhabitants, and to fur traders. These rough and burly fellows, working for the North West Company or its rival, the Hudson's Bay Company, traded in beaver pelts and many of the fur traders married Indian women.

Jefferson assigned the exploration of this Terra Incognita to Meriwether Lewis, aged 29, his personal secretary since 1801. His goal was to find a waterway connecting the east and west of the territory. Lewis showed his genius in choosing as a companion for this fantastic adventure his friend William Clark, a man four years his senior, who would share responsibilities. While Lewis was a slightly-built intellectual and an introverted dreamer, Clark counterbalanced him by being very much the opposite: a very strong man, tutored at home, pragmatic, warmhearted, of very sound judgment, and having the common touch.

In December 1803, Lewis and Clark joined a small contingent at Camp Dubois near St. Louis, arriving in a keelboat specially built for the expedition. The two captains camped during the winter at the mouth of the Wood River and recruited young volunteers, including soldiers from American forts. In the spring, the expedition had 33 men: the Corps of Discovery was born.

On May 14, 1804, the small exploration fleet, consisting of the keelboat and two canoes, began the long climb up the Missouri. The expedition carried a large quantity of cheap trinkets to be given as presents to the Indians: 2800 hooks, about 150 small mirrors, 22 rolls of canvas, 130 rolls of tobacco, hundreds of strings of beads, brass buttons, knives, hatchets, scissors, 400 pins and bracelets, 4600 needles, medals bearing the likeness of Jefferson, gunpowder and weapons.

During the long, hot summer of 1804, the expedition continued upriver, facing hordes of mosquitoes, treacherous currents, and dangerous logs floating in their path. Occasionally, the explorers had to walk on the shoreline, pulling the boats upriver by means of ropes. Some of the crew were sent out to hunt for food. On a good day, the expedition might advance 15 miles (20 km). The group encountered many Indian nations, such as the Missouri, the Sioux, the Omaha and the Lakota. Captains Lewis and Clark offered their gifts, met their leaders, and encouraged peace between them and their new «Father», President Jefferson.

On August 20, Sergeant Charles Floyd died, probably of appendicitis. A river was named in his honour. Amazingly, this was the only death in the Corps of Discovery during the two and a half year expedition.

In October, they reached the villages of the Mandan and Hidatsa in North Dakota. They had traveled 1600 miles (2,500 km) in 164 days. In four weeks, they had built Fort Mandan, and lived there five months that winter, hunting and learning about their future route from Indian and Canadian trappers living nearby.

They also hired Toussaint Charbonneau and his pregnant Shoshone wife, Sacagawea, or «The Bird Woman». This teenager had been kidnapped at age 12 by the Minitari, and Charbonneau won her in a dice-game! She was the only woman in the expedition. In spite of her pregnancy, Clark had the wisdom to see that Sacagawea would help the expedition cross the Rockies by being able to secure horses from the Shoshone.

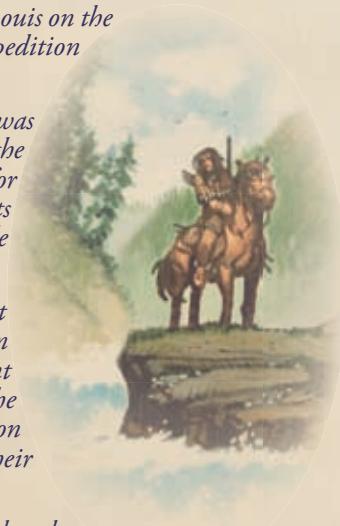

On April 7, 1805, a small group of men returned to St. Louis on the keelboat, bearing a report for Jefferson. The rest of the expedition (32 people) continued up the Missouri.

The Great Falls Portage, lasting from June 13 to July 25, was an epic American journey, bypassing the Great Falls of the Missouri in present day Montana. Through mountains, for a distance of 18 miles (25 km), all equipment and boats had to be carried by hand, or in makeshift wagons, while avoiding grizzlies, rattlesnakes, and prickly pears.

In July, they reached the territory of the Shoshone. On August 17, Sacagawea, who had been recognizing landmarks from her childhood, found her tribe. Miraculously, its current leader was her own brother. They readily provided the Corps with horses and a mule, without which the expedition couldn't continue. A Shoshone, Old Toby, agreed to be their guide through the Rockies.

In September, on the crest of the Bitterroot Range in Idaho, the Lolo Trail proved to be a hell of snow and mud lasting 11 days, with nothing to eat and where haggard horses stumbled and rolled into ravines. Descending the western slopes of the mountains, they reached a village of the Nez Perce. The Indians offered them salmon and roots, but the unusual diet made them sick.

Arriving at the Clearwater River, they gave the Nez Perce their horses and built canoes with which they followed the rapid course of the Snake River, and then the Columbia. Not far downriver, the Corps was forced again to portage to avoid rapids. Soon they realized they were in an estuary. In mid-November, 1805, they reached the Pacific. The Corps had traveled for 554 days and 4,132 miles (6,700 km).

NOTE ABOUT THE CHARACTERS

All the cards show historical characters who played a part in the success of the Lewis & Clark Expedition. Each card's effect is related to the historical role of its character.

He is a steady member of the expedition, despite having been court-martialed for scaling the Fort Mandan stockade wall when returning from a visit to the Mandan Indian village.

York (Orange)

Clark's manservant, he plays a key role in diplomatic relations. Because of his appearance, the Indians suspect he has magical powers. He saves Lewis from a grizzly bear.

Silas Goodrich (Yellow)

He is transferred from his army unit to Lewis and Clark's command in 1804. He is the principal fisherman for the corps, and provides other food when necessary.

Joseph Whitehouse (Orange)

He serves as a tailor and keeps a journal. He is almost killed on the Jefferson River.

Joseph & Ruben Field (Orange)

They are brothers, two of the «Nine Young Men from Kentucky». Healthy and lucky, they are two of the top hunters of the expedition.

18 years old, one of the «Nine Young Men from Kentucky». He is a good singer, hunter and horseman. He gets lost occasionally, but always manages to find his way back.

John Colter (Green)

He is one of the best hunters in the group, and is routinely sent out alone to scout the surrounding countryside for game. He is considered to be one of the first mountain men.

William Werner (Purple)

He serves as a cook and was probably born in Kentucky. Before the expedition, he was disciplined for fighting with John Potts and is court-martialed in 1804 for mutiny.

William Bratton (Green)

Skilled blacksmith from Kentucky, he is over six feet tall and square-built. He has been suffering an extreme pain in his lower back for months and is cured in an Indian sweat lodge.

Eg: If you give the Partisan 2 Strength, you can copy two face-up Characters' Actions, or copy the Action of one face-up Character twice. SOLO VARIANT

Set Up

Set-up proceeds in the usual way.

Then place one of the remaining Scouts - who will be called Alexander Mackenzie - on a route space between 0 (easy level) and 7 (expert level) spaces upriver from Saint Louis.

Place the 8 resource badge tokens on the Village locations according to their backs (matching the illustrations on the board).

In the Solo game, you apply the same rules as for the multi-player game except for the two following differences:

1- Primary Resources Collection

In this variant, each place **where an Indian is present** in the Indian Village provides the resource corresponding to its resource badge.

During a collection, add up the number of badges of the resource being collected that are visible in your Playing Area and on the **occupied** places of the Village.

Cédrick plays the Hunter with a Character card having a Strength of 3. The Hunting and Shamanism places are occupied; they provide one Food each that is added to the Food provided by the Food badge in the Playing Area. Cédrick can therefore take $3 \times 3 = 9$ Food thanks to this Action.

2- Your Opponent : Alexander Mackenzie

After you have finished your turn, move the Alexander Mackenzie figure one space forward on the route. This figure is treated as a Scout.

You win the game if you manage to settle your Camp in Fort Clatsop (or beyond) before the arrival of Alexander Mackenzie at Fort Clatsop.

Alexander Mackenzie was a Scottish explorer. In 1789, he set out by canoe on the river known as the Dehcho (later renamed the Mackenzie River in his honor) following it to its mouth in the hope of finding the Northwest Passage to the Pacific Ocean. He ended up reaching the Arctic Ocean. He set out again in 1792 and crossed over the Coast Mountains. Descending the Bella Coola river, he reached the Pacific coast on 22 July 1793. Thus he completed the first recorded east to west transcontinental crossing of North America north of Mexico.
